EXPERIENCE - LAST 5 years

Elementor, Israel — *T3 Cloud Engineer*

MAY 2022 - NOV 2022

I worked on Elementor Cloud as a part of the CX team. The role was semi-DevOps, with additional tasks like providing solutions for our T2 Customer support team. I held training for the cloud support team on all hosting topics, including domains, DNS, networking, nginx, WordPress, AWS, GCP, and more.

Elementor, Israel — *T2 CX Engineer*

JULY 2021 - MAY 2022

Providing top-tier support for the Elementor PRO plugin. Held numerous knowledge-sharing classes related to advanced dev topics and participated in many company teams.

Web Factory, Croatia — *WordPress Plugin Developer*

JULY 2020 - MARCH 2021

I provided maintenance, development, and updates for the company's 40+ plugins on the WordPress Repository.

Lyra Themes, USA — *WordPress Developer and Support Specialist*

FEB 2020 - MAY 2020

I helped customers achieve success using the company's products. I was also providing paid customization services for company plugins and themes.

ThemePunch, Germany — *Tech Support Specialist*

MARCH 2019 - FEB 2020

I was working as a lead Support Engineer. Besides handling tickets, I was working on custom development services for Revolution Slider and Essentials Grid.

Sentree Host, USA—*WP Developer Tech Support*

FEB 2018 - FEB 2019

Providing developer-level support for WordPress and VPS, Multisites, cPanel, Nginx, WP CLI, handling anything related to hosting, servers/clusters & WordPress websites.
